The Junta will Do as It Pleases about Making Reparation.

No Expressions of Regret for the Valparaiso Outrages.

War Talk at New York-Plenty of Ship to Send to Chile in Case of Trouble - English Opinion.

By Telegraph to The Times. Washington, Oct. 29.—[By the Associated Press.] There was no excitement in official circles this morning over the Santiago press cablegram an nouncing the receipt by Minister Egan of an unsatisfactory response from the Junta to the representations of the United States and saying that the Baltimore's crew are practically boycotted at Valparaiso. Naval officials discredit the latter statement and believe its foundation lies in the prudent course adopted by Commodore Schley respect ing the granting of liberty to its sail-ors during the present condition of ex-

No word was received at the Navy Department from the Commodore re-porting any new phase in the situation. A cipher cablegram from Minister Egan was received this morning. It was nearly noon before Egan's cablethe President. An hour afterward messengers were dispatched to Secre tary Blaine and Secretary Tracy, requesting their presence at the White House. The Secretaries promptly responded to the President's summons. scretary Tracy staid an hour at the White House and returned to the Navy Department, but he had not been there long when he was recalled. Naturally se movements gave rise to all kind of more or less wild speculation as to the nature of Egan's dispatch and the intentions of the Government. When Secretary Tracy again emerged from the White House he refused to make any statement whatever respecting the Chilean correspondence, on the ground that the Department of State had the matter in charge. Secretary Blaine appeared in good spirits when he came out of the White House and stepped into his carriage to go home. He had nothing to say about Egan's message, but intimated that when the proper time had elapsed the public would be informed of the facts. Soon after 6 o'clock an official statement of the centents of Minister Egan's dis-

the centents of Minister Egan's dispatch was made public. It reads as follows:

The Department of State received a telegram this morning from Minister Egan dated Santiago, Octobert 28, in which he gives the following as the reply of the Chilean government to the President's telegram of October 23, asking reparation for the recent murder of American sailors in the streets of Valparaiso.

"The minister of foreign affairs replies that the Government of the United States formulates demands and advances threats that, without being cast back with acrimony, are not acceptable, nor could they be accepted in the present case, or in any other of like nature. He does not doubt the sincerity, rectitude or expertness of the layer than the present case.

He says that the admin-strative and judicial authorities have been nvestigating the affair, that a judicial in-restigation under Chilean law is secret and the time is not arrived to make known the result. When that time does arrive he will communicate the result, although he does not recognize any other authority competent to judge criminal cases than that established by the Chilean people Until that time arrives to disclose the result of the investigation he cannot admit that the disorders in Valparaiso or the silence of his department should appear as expression of unfriendlinesss toward the Government of the United States, which might put in peril the friendly relations between the two countries." he time is not arrived to make known the

Up to the hour when the above state ment had been made public, no reply had been made to it. What will be the nature of Secretary Blaine's reply is a matter of conjecture. The most plaus-ible theory advanced is that the suggestions, courteously and diplomatically conveyed in Acting Secretary Wharton's dispatch, that this Government had no doubt that an investigation would be made and reparation afforded, will now be renewed in the shape of a stern and formal demand for some immediate as surances of proper action on the part of the Junta, and if these are not forthcoming, Minister Egan will take pas-sage on the Baltimore for the United States, thus severing diplomatic rela-tions between the United States and

New York, Oct. 29 .- A special from Washington says that the conservative members of the Cabinet favor taking no decisive action on the Chilean matter until the new government recently elected is established; to pay little heed to the Junta and give the government ample time to investigate and make reparation. There is little talk in official circles of actual trouble.

Nothing official has been received here relative to the course of the Government. London Papers Take Quite Opposite Views of the Situation.

LONDON, Oct. 29.—[By Cable and Associated Press.] The Post, after remarking that the naval inferiority of the United States will make it difficult for her to coerce Chile, expresses the hope that both parties will modify their attitude before proceeding to hostilities. attitude before proceeding to hostili-ties. The Post enters into an elaborate argument, quoting from authorities on international law and giving practical instances, to prove the invalidity of Minister Egan's views on the extra-territoriality of the United States lega-tion and concludes. "The whole questerritoriality of the United States legation and concludes: "The whole question is so important that the action of the United States will be awaited with interest everywhere and not without anxiety at the prospect of a confusing revolution of international customs."

His action was a notorious violation of the obligations of neutrality, but there is no reason in the world why the Chileans should adopt a defiant attitude. It will be necessary for the United States, doubtless sorely against her will, to give them a salutary

The Chronicle thinks the affair hardly The Chronicle thinks the affair narray a matter for war, or even the mobilizing of the United States Navy. The Times regards American utterterances as talk intended to influence terances as talk intended to influence the coming elections, and says that after Tuesday a settlement will probably be found satisfactory to both parties. It says: "Mr. Blaine's aims to form a zolverein with South America are not likely to be promoted by threats, still less by an actual declaration of the says."

But little business was transacted by shipping men and by those interested in the Chilean situation this morning. The whole topic of conversation and speculation was what this country would do in the event of war with Chile. Most of them were inclined to scoff at the idea of her going in the face of the United States, but the feeling prevails widely that the Chileans are ready to fight. Several prominent down-town business firms who have commercial relations with Chile were called upon this morning with a view to ascertaining their feeling in respect to a possible outbreak of hostilities between the United States and Chile.

The wound is not of a serious nature, but on account of the swelling Dillon must keep quiet. Con-sequently he ceased his work of canvassing on behalf of the nominee of the McCarthyites.

The fighting which took place be tween the McCarthyites and Parnellites last night in this city was more serious than at first appeared. There was a series of scrimmages between the contending parties, the most severe being the one in which Dillon was dis-abled. Crowds of McCarthyites were upon that occasion accompanying Dillon and O'Brien, who were on their way to attend a McCarthy meeting. The McCarthyites came into collision with a procession of Parnellites. The threatened mélée was averted, however, by the action of Herculean John O'Connor who forced his way through a dense and excited crowd toward the spot where a car containing O'Brien was standing. Arriving at the car, O'Connor held a hurried and whispered conversation with O'Brien and finally the two men linked O'Brien and finally the two men linked arms and passed through the crowd This had a good effect, for seeing the opposed members so friendly with each other, their partisans allowed their ardor to cool and order was soon re-

Union Seminary Directors Stand by the Professor.

They Claim That the General Assembly Has No Power to Veto His Appointment-A Compromise Finally

New York, Oct. 29.—[By the Associa ted Press.] The directors of Union Theological Seminary met again this morning to confer with the committee from the General Assembly regarding the disapproval of Prof. Briggs's apit to a chair in the seminary

At 12:80 the conference took a recess for an hour. When the conference adjourned to-night the proceedings of the two days' session were made public. The direct-ors of the seminary maintained their independence and allegiance to Prof. Briggs, whose election to the chair of Biblical theology was vetoed by the General Assembly. The two days' session resulted in a great deal of talk, talk, but the matter is still unsettled with indications unfavorable to a near settlement. The directors adopted a resolution setting forth that there is a misconception of the meaning of the action of the board in 1870, whereby action of the board in 1870, whereby the appointments of professors were to be confirmed by the General Assembly. The directors say this referred to the election of additional members of the faculty, not to appointment to new departments of professors already in office or to their transfer.

office or to their transfer.

The Assembly Committee then caucused and adopted a resolution declaring that the General Assembly had always regarded said arrangement as binding upon both parties and asking the views of the directors.

After deliberation the directors re-turned another resolution, declaring that the board without surrendering its interpretation of said arrangement fully recognizes its binding force until it shall be proved illegal and properly abrogated. Thus the affair ended.

Thirteen Persons Known to Have Died by Fire or Drowning.

Fears That the Actual Death List will Prove Much Larger.

Work of a Gang of Employee Who Had Been Dis charged.

By Telegraph to The Times. VICKSBURG, (Miss.,) Oct. 29.—[By the Associated Press.] By the burning of the fine steamer Oliver Bierne, at Milliken's Bend Landing, at an early hour this morning, thirteen lives are known to have been lost and it is feared that more perished. The boat lay up at the landing with many cabin passengers and over 200 "deckies," white men, en route to the various levee works.

There was a lot of cotton to be loaded at the landing and the mate had trouble with the roustabouts and a number of them quit work, after which the mate hired white men. This enraged the negroes, who made open threats

against the mate and the boat. At 3:20 this morning the cotton in the deck room was discovered to be on fire, and in a short time the entire boat was a mass of flames. The passengers were aroused and everything possible done to avert loss of life, but as stated above, thirteen persons are known to have perished, and it is feared several unknown deck passengers lost their lives. Most of those rescued had to jump into the river, where they were picked up by yawls. The fire spread with such rapidity that they could get off of the boat in no other way.

The passengers lost everything. The survivors of the disaster were shown every kindness by the citizens of Miliken's Bend. The list of lost reported by Capt. Thorwegen is as follows

Two children of Dr. Worrell of Baton Rouge, Sam V. Entriken, two chambermaids, a daughter of Mr. Adams of Omaba, five cabin boys, the nurse of Mrs. Frazier of Natchez, Mrs. Woolidge of New Orleans.

SUIT ON CLAIM AND DELIVERY.

The case of Mrs. Francis E. McDonell against Constable H. S. Clement and John Robarts, a suit on claim and delivery, occupied most of Judge Wade's attention y esterday in Department Three. It appeared from the testimony that the defendant Robarts obtained judgment against Charles A. McDonell, a druggist, for rent, and that by virtue of an execution duly issued therefor, his stock of drugs, valued at \$500, was sold by the defendant Clement. The plaintiff, however, claims that the property was transferred to her by her son, prior to the attachment, on an unrecorded bill of sale. The matter was taken under advisement by the Court.

In Department Five yesterday Judge Shaw heard the appeal case of J. W. Tufts vs. Ben L. Bear, a suit to recover the sum of \$260 alleged to be due on ten promissory notes, which was decided by Justice Austin in favor of defendant in April last, and at the close of the testimony ordered the matter submitted upon briefs, the parties being allowed five days each in which to prepare the same.

RANSOM HOME.

The Institution Moved Into Larger Quar-ters—More Help Needed. The Ransom Home, which is for the benefit of homeless and friendless women and small children, has been renoved from No. 1928 Bonsallo avenue to the large white house near the corner of West Twenty-third and Norwood streets, near the Marlborough school.

The home has done and is doing

noble work, not only supplying the tem-poral needs, but caring for the spiritual poral needs, but caring for the spiritual welfare of its inmates, quite a number of whom have been converted under the Christian influence of the matron. Mrs. Marcoux. The present home is larger than the other, which necessitates more furniture and matting. Carpeting, chairs or any household furniture will be most acceptable. Gifts of clothes, groceries, fruit or any supplies will also be welcome. All contributions may be left with Mrs. E. C. Ransom at 788 South Olive street, between From the class of women in the home many of the best families have been and are being supplied with efficient help, as the inmates are trained to practical service. The managers are hoping that some benevolent person who has plenty of land will donate an acre or two on which a permanent home can be erected. The institution is supported entirely by voluntary subscriptions, and anyone giving will be bestowing upon a worthy object.

THE CHRYSANTHEMUMS.

The Attendance at the Fair Increas ing Each Day.

uitar and Vocal Music by Prof. Areval and His Pupils Last Evening -New Floral Features.

The attendance at the Simpson chrys inthemum fair increases every day. Last evening the immense garden which is capable of holding 7000, was so thronged with people that it was not an easy matter to make one's way through the crowded avenues. The universal expression of all visitors is that of amazement at the magnitude of the display. Even Californians, who have grown accustomed to all sorts of wonders in the way of vegetable and floral growth, are astonished to see what has been accomplished in the cultivafloral growth, are astonished to see what has been accomplished in the cultivation of this lovely foreign flower, which, three years ago, was comparatively unknown here. When the ladies of Simpson Church gave their first fair then, they sent east for many of their choicest varieties and the Simpson auditorium was large enough to hold both the display and the visitors who came to see it. Year by year it has grown till it has culminated in this, the grandest floral display Los Angeles has ever seen, and which outrivals the flower shows of the world. There are not many points on the globe, indeed, where it would be possible to make such a one-flower display, and the novel idea of giving it out of doors in a canvas-enclosed garden is so original as to inspire curiosity on the part of the most indifferent.

Last evening Prof. Arévalo and his pupils furnished a programme of vocal and guitar music which was sufficiently entertaining to draw from the fascinations of the flowers and booths an audience which fillad the great auditorium to overflowing. Enthusiastic applause greeted each well-rendered selection and when it was over the crowd sought the garden again. Its charms never pale and its flowers and vines do not wither or fade because they are growing in their native soil. One can note the bursting from bud to bloom day by day.

day by day.

A beautiful bouquet of choice chrysanthemums in white and all the shades anthemums in white and all the shades from flush pink to deepest crimson, ornamented the special chrysanthemum booth last evening from Mrs. C. S. Walton's garden. A constant throng surrounded this booth. Mrs. Col. Wheeler, Mrs. I. N. Van Nuys and Miss Mollie Adelia Brown explained to the visitors the curious features of the many rare blossoms exhibited here.

a New Church"-Other Interesting Addresses-Sundayschool Matters.

Yesterday morning Rev. P. S. Thacher of Santa Barbara spoke at the Unita-rian Conference on "How to Start a New Church." Mr. Thacher is a nerv ous little man, who gesticulates freely when he speaks, his voice never falling into a monotone. The topic was peculiarly his own, as he has built up a flourishing church in Santa Barbara from a mere handful of worshipers, His methods are full of tact, and he evidently understands how to handle people. "The first thing I do when I enter a new town," he said, "is to call upon the lawyers and physicians. I advertise in the papers and use posters. Having organized a society, I call upon every family that attends the services. I make about 1400 calls a year. Then I strive to make the church the center of the best life of the community. In the morning I preach a religious discourse, and in the evening a devotional lecture. Unitarianism bears with it the best and strongest intellects in every community." into a monotone. The topic was pecu

Rev. S. A. Gardner of of Fresno took a part in the discussion also and advocated strict business methods. Thoroughly advertise your purpose and then strike while the iron is hot and keep on striking. Hold meetings four or five nights in succession and then organize. The first thing is to explain why you are there. Show why a liberal society is needed. Begin with doctrinal sermons and present strong contrasts with the doctrines of other churches. Outside of all the churches I have found grand men and women, and our success depends largely on getting them. We

grand men and women, and our success depends largely on getting them. We need the services of men who are devotional and at the same time rational. President Thompson, of Tacoma, thought social harmony and activity had much to do with keeping up the interest, and in this department women are most useful.

Superintendent Van Ness also advocated the necessity of sociability and paid a compliment to orthodoxy when he said: "Men do not live from the head, but from the head, but from the head, but from the heart than the head."

Rev. Dr. Stebbins outlined his policy in establishing churches in small towns.

For the coming season it would not be a stretch of probabilities to place the available output at 5000 carloads, tion of the electric current may be re-This is an immense quantity of fruit to place on the market-especially that kind of fruit which is available only in the fresh form, and which is generally regarded as a luxury rather than a stathe handling of this crop to work with the utmost circumspection, utilizing every market hitherto acquired and extending our territory as much as possible to include new markets.

The orange crop of Florida will not be brought into competition with ours so much this year as it was last. Last year Florida oranges were late, and the shipping season lapped over upon the time usually left for California. This year the Florida crop is on time and the California crop will be fully three weeks later than usual. This will keep the two principal producers out of each others' way, which will prove an advantage to both. But the Florida crop this season is very large. It is estimated by those best posted at from 3,000,000 to 4,000,000 boxes. At 300 boxes to the car, this would make from 10,000 to 13,ers have the advantage of the popular centers all along the Atlantic seaboard for their markets, and these they reach by cheap ocean carriage. But even these facilities seem to strike them as inadequate for the disposal of their immense crop, and this year they are endeavoring to open up a market in Europe. As noted the other day, several shipments have already been dispatched across the Atlantic. The portion of the Florida crop which finds its way to the western centers of trade rather forestalls than competes with our shipments. In the main it has not hitherto proven a serious drawback for California fruit, as the people of the west only get their appetites well whetted by the time ours gets along We have the advantage of the spring months, when the change of weathe gives everybody a hankering afte

While the Florida shippers feel the necessity of enlarging their market, and are pushing out for Europe, we ought to take our cue from them and reach for the Atlantic seaboard. As yet we have hardly made an impression on New York, Philadelphia, Boston or any of the important cities of the Eastern States. The difficulty in reaching those places hitherto has been the great distance of transportation and the high freights. With careful packing, utilizing the most improved fruit cars for shipment, and securing reasonable tolls, we ought to be able to place our oranges on their fruit stands at reasonable prices. Whatever success we have achieved in the western markkets awaits us twice or three times multiplied in the eastern, if we only

acceed in finding the open scsame. It is generally understood that the shippers of California oranges did not me out very well on last season's crop. The early market was more or s demoralized by the lateness of the Florida fruit, and late shipments from here did not seem to carry well, much of the fruit arriving in bad condition. shipper lost money in the season's work. If this be so, they will be very cautious about this year's purchases, and each one will aim to recoup himself for his former ill luck.

In view of this fact and all the other circumstances above canvassed, it seems manifest that the orange growers of California should immediately be gin to face the problem before them. and prepare early to protect their interests so far as possible. The meeting of the Fruit Growers' Union, called at Chamber of Commerce Hall on the 5th of next month, is a movement in this direction, and it should secure a full representation of the producers. will probably be deemed advisable to enlarge the scope and operations of the organizations somewhat, and probably to send an agent east immediately open the way for trade. At any rate, the sooner the growers get together and "talk business" the better.

Dissolving Steel by Electricity. It is reported that an electrician at Milwaukee, Wis., has devised a method of melting iron by electricity, and a belief is expressed that this will revolutionize iron manufacture generally. So many revolutions are promised in the mechanical world by the use of electricity that it will not do to accept every one announced as an accomplished fact until it is well demonstrated. In this case there is a possibility that electricity may be utilized, not strictly for melting iron, but for dissolving it. had worked through one end of the box Every electrician knows that he can melt iron by a current of electricity properly employed to produce heat, but melting it in that way would be anyenough air in the box to favor combusthing but an economical process of re-Pittsburgh different the gentleman's house might is full of interest in this conhave burned and hobody would have nection. hardened, polished steel three inches in diameter. The revolving disc at no time touched the bar of steel which it severed, and it was not raised in temper ature, though sparks flew about and drops of liquid steel fell from the cut. The drops of steel were not hot; the metal was simply dissolved. The theory is that the atoms of the bar became freed by the superior electrical force gen erated in the revolving disc. It well known principle of electric science that any revolving globe or disc generates electricity, that a revolving cur rent of electricity creates magnetism. The mechanical effect of magnetism is believed to be 'simply a synchronic rearrangement of the molecules of the mass magnetized. If now, electricity in producing magnetism has power to rearrange the mole-cules of the mass, is it not posfurther by the same process, and the molecules of the mass be so separated from each other as to transform the mass from a solid to a liquid form? Perhaps in dissolving iron or steel by the electric process, some different applicaquired than that of the revolving swirl used to create a magnet; perhaps that particular application has been blundered upon by the man who severed his bars of steel by a revolving disc brought into juxtaposition with them. It is a good subject for scientific men to study.

Yesterday morning Officer Woodward was called to No. 2814 Maple avenue to quell a family row that promised to result in bloodshed. The house is occupied by an old man named Walsh, and he stated that his step-daughter's hus-band, F. A. Burnham, was acting strangely, and he feared he would do somebody great bodily injury. It seems that Burnham's wife left

him a short time ago, and he got it into his head that her step-father was at the bottom of his trouble. Yesterday morning the young husband induced a friend of his named Tom Woods to watch the house and learn if possible whether his wife was there. Woods' presence attracted the attention of the old man, and when the deserted husband put in an appearance there came near being trouble between the two men. The officer advised the old man to ap-

The Natives Becoming Hostile to the Whites-Expenses Running Ahead of the Revenues-The Land Court Kept Busy.

By Telegraph to The Times. APIA (Samoa,) Oct. 15, via San Francisco, Oct. 29.—[By the Associated Press.] Baron Senft von Pilsach, pres-dent of the Municipal Council and ad-

viser to King Malietoa, has resigned. The reason he assigns is that certain white residents of Samoa have been writing letters to the King about the German currency and other matters, and that the King wrote direct to them in reply. Pilsach claims that no one should either write or speak to King Malietoa before first securing the president's permission, thereby actually assuming the position of dictator of the islands.

Before he resigned a memorial to the three powers had already been pre-pared by the consuls of the three treaty powers and will be forwarded. The memorial petitions the three governments for the recall of Baron Pilsach, on account of "inexperience and reckless behavior in office." morial is also signed by Robert Louis Stevenson and by nearly all the residents of Apia, with the exception of some Germans. The baron inti-mated to the consuls that he would mated to the consuls that he would hand over the funds here and at Sidney to them, but afterward he wrote saying that on looking over the treaty he did not see that he had power to do so, although he had drawn \$6000 from them in the form of duties collected by them before the arrival of the president. Two days them in the form of duties col-lected by them before the ar-rival of the president. Two days before he resigned, Baron von Pilsach stated that he intended to hand over the archives of the municipality and funds to Mr. Meber, manager of a Ger-man trading firm, who had been ap-pointed president, pro tem. The con-suls, however, contended that he was exceeding his powers and that while he remained in the country he could not relegate his powers to others, as he remained in the country ne not relegate his powers to others, as the treaty does not make provisions for a case of that kind. BURKETT'S DEATH.

Result of the Inquest Held Yes-

Testimony of John Robarts, the Dead Man's Attorney.

He Details the Business Relations Between Griffith and Burkett.

ents of Eye-witnesses Regarding oting and Suicide-How the Deed was Committed—The Verdict:

An inquest was held at 2 o'clock ves erday afternoon in Orr & Sutch's undertaking rooms on the remains of the day before, near the Catholic Cemetery and then killed himself.

Coroner Weldon had taken Mr. Griffith's statement in writing to be used if necessary, but it was not needed, as there was sufficient, evidence to show that Burkett committed suicide immediately after shooting Griffith.

the taking of testimony was proceeded

John Robarts, the attorney, was the first witness sworn and stated that he knew deceased; that he is a native of England, came here in 1889, and is about 49 years of age. Shortly before June, 1889, witness became acquainted with Burkett and was told by deceased that he had leased a portion of the Los Feitz ranch with the understanding that he was to purchase the land. Deceased then entered into an agreement with a Mr. Dennison to sell, and when Griffith heard this he (Griffith) gave out that Burkett had forfeited his rights, etc. Burkett then brought suit through wit-ness and was nonsuited. He wanted to appeal, but was advised by witness and Henry T. Gage, Esq., his then partner, not to take an appeal. Subsequently Burkett made an agreement to sell one-half of the land to a Mr. Sketchley, but friffith stated to various parties that he would not give a deed if Burkett sold. Burkett then, through his attorneys, the witness and Judge Bicknell, brought suit for slander against Griffith, but the case was lost and Burkett took the case to the Supreme, Court. The judgment of the lower court was confirmed. At this time the house that Burkett had built time the house that Burkett had built at a cost of between \$3000 and \$4000 was burned and Burkett disappeared for some time, when he again called on witness and wished to petition the Supreme Court for a re-hearing. Witness advised him not to as also did Bicknell. About ten days ago Burkett called and wished to open the case again. In regard to Griffith's statement that Burregard to Griffith's statement that Burkett's attorneys got all his money and then dropped him, witness stated that all the money paid them was \$100 in June, 1889, and \$100 in August, 1889. Burkett was having trouble in England. He expected to get money from his mother's estate. When he came here he had about \$20,000. Witness and Griffith have not been on speaking terms for about two years and Mr. Griffith has made several statements reflecting on witness for bringing the suit. Deceased has been very cross and excitable since the case was disposed of

in the Supreme Court.

The next witness was Mrs. Ynes
Lyon, who was near by when the shooting took place. She saw deceased drive
up to a point in front of the Catholic graveyard and place a pistol against his head and fire. He remained in the buggy, She heard two shots just before the man shot himself. When she heard the first shot she ran up to the fence and saw the deceased drive across the street and shoot himself, but she saw nothing more.

He drove a few feet, when he heard a shot and looked around. He saw a man standing up in a buggy a few feet from Mr. Griffith. He fired over the fence and then sat down. He then got a pistol in his hand and drove toward witness. He seemed to be trying to shoot himself in the head. When Ing to shoot himself in the head. When he got to a point near witness, he checked his horse and then put the pistol against his head and fired. He fell over, and witness, who was only thirty feet away, called to some men and they went to deceased's buggy. Witness did not see Griffith after the shooting until he came in from behind the sexton's house.

Officer Bosqui testified that when notified at the police station that a man had been shot on Buena Vista street, witness jumped in the patrol wagon and hurried to the scene of the shooting and found deceased in a buggy, dead. Witness identified the shotgun and pistol. There was a little grip under the seat in which he found two cartridges and in one he found eight buckshot.

Officer Bevan stated that he visited the scene with Officer Basqui, and he told about the same story as Bosqui. James Russell was sworn and stated that he knew deceased, Frank Burkett, and that he was about 60 years of age. He came here from England about six years ago. Witness saw him last week and he seemed to be considerably worked up over his case. He was a widower, his wife having died in England. Deceased had always been a quiet, peaceable man.

The matter was then given to the jury, and they brought in a verdict in accordance with the facts.

MR. GRIFFITH'S CONDITION. Mr. Griffith passed a comparatively easy night Wednesday, and was much easy night Wednesday, and was much better yesterday morning. During the afternoon he sat up for a considerable time, and received quite a number of friends who called on him. He expects to be ap and attending to business again in a lew days.

A NARROW ESCAPE.

A Man, His Wife and Two Children Rescued from the Flames.

Last Thursday night Judge R. A. Ling, accompanied by his nephew and daughter, was out calling on a friend in East Los Angeles, and staid rather late. As he was passing the corner of Workman and Kuhrts street on his way home, he saw the back part of a house occupied by Mr. Richards wrapped in flames. He went to the front door and pounded on it to give an alarm, but got pounded on it to give an alarm, but got no response. Then he went to the front window and thumped and shouted. This time he roused the inmates. Mr. and Mrs. Richards got out of the window in their night clothes, and then thought of their two children. A rush was made into the house for them, and, by the time they had been taken out, and a few bedclothes to wrap them in, the house was all in flames. It was a very narrow escape for the occupants. very narrow escape for the occupants. Had Judge Ling been five minutes later they all might have been suffocated and burned. "I know the weight of that pumpkin," he said as he stood off and surveyed the 200-pounder, "but I'm not satisfied with that; I want to know how large around it is," and he began unwinding his tape. Supt. Wiggins took hold of one end and started on a tour round the pumpkin. When he got half way around the man shouted that the tape line line had given out. Another one was spliced on and Mr. Wiggins pursued his journey. By the time he got back to where the man was standing he had belted the pumpkin with seven feet of tape. A sixteen-inch apple, a twenty-two-inch sweet potato and a seven-inch persimmon next caused the eastern man to open his eyes. "I shall send these measurements back East," he murmured, adding under his breath "they won't believe it, though; they think the Californians are great story tellers when it comes to farm produce."

Nothing in the Case.
Brief mention was made in THE TIMES yesterday morning about a case of cruelty to a child, reported on Fourcruelty to a child, reported on Fourteenth street. Humane Officer Wright
investigated the case yesterday afternoon, and states that there is nothing
in it. The mother of the child admitted
that she had struck the child one or two
light blows on the dress with a whip,
more to frighten it than anything else.
Mr. Wright stated that he had examined
the child, and that there were no
bruises or hurts on its body. Furthermore, the child was not afraid of either
its father or mother, and was not in the
least cowed.
Last evening the father of the child
called at The Times office and stated
that the charge had been made from
malicious motives, a he had been subjected to numerous petty annoyances

All railroad men in this county know George R. Blanchard, chairman of the Central Traffic Association. HERE is the strongest kind of a reason for the very large increase in business throughout the house. Red tape and expensive methods were fired out of the house last January and in its place a cheapening of expenses and a lowering of profits. There is a quickening all along the line; trade has taken an enormous jump upward; dress goods and cloaks doubled and quadrupled, while all other departments are coming in on a good second that bodes no good for competitors in the near future. Moderate profits, then, is the meat in the cocoanut; polite clerks, and we emphasize the fact, energetic men and women who delight to serve the patrons of the house with politeness and affability; goods shown with the utmost freedom; whether you wish to purchase or not you will be treated like a king. A lowering of profits; moderate profits on the finest as well as the cheapest. You will see more fine cloaks on the street this year than ever before, due solely to the fact that the basis of moderate profits has enabled a large number to purchase better garments this season than over before; moderate profits not only in cloaks but in dress goods as well. Dollar goods last year, 75 cents now; 65-cent goods last year now 50 cents, and there is no difference in the cost; there has been a betterment of qualities. Royal Worcester corsets, better in fit, cheaper in price and as good in every respect as the imported goods; this is to your advantage. Villa kid gloves; none better for wear and none their equal in fit. Blankets now \$1, last year \$1.50; blankets now \$2, last year \$2.50; moderate profits is the basis and the sales show the wisdom of this method.

The Topics of the Day Club, recently formed in the southern part of the city, held its first meeting at the residence of Mrs. Lewis Hamlin, on Thirtieth street, last Wednesday evening. D. H. Luther, as president, presided in a very able and efficient manner and proved to the satisfaction of all that he was the right man in the right place. A few of the leading questions of the day were brought forward and caused a very animated discussion, the different views and opinions calling forth several spirited arguments, which proved to be very interesting. Two new topics were selected for discussion at the next meeting, and the president requested all of the members to read and otherwise obtain all the information possible, so as to make the debate of interest to all. Music, dancing and refreshments were next in order, and one and all expressed themselves as very highly entertained as well as instructed, and voted the first meeting of the club an unqualified success. The next meeting will be held at the residence of Mrs. S. A. Hobill, on Thirty-second street.

Orange and Lemon Lands At Redlands, Mentone and Barton Ranch. Only 10 per cent cash

Over \$400,000 worth of this class of land has been sold by the undersigned in Mentone and Redlands in the past two years in 10 and 20-acre tracts, and ALL to settlers, most of which is now planted and has handsome residences thereon.

The demand for land at MENTONE has increased very materially since last winter on account of not having any frost there to injure the most delicate shoot on the orange tree.

The demand will be greater now than ever before, for the reason that the recent storms did not do one dollar's damage.

The formation of the mountains around MENTONE is such that it is almost entirely free from the north and east winds, it being about 2,000 feet above sea level, and about 80 miles from the ocean, the fogs do not drift in the air—is cool in summer and we have a superior or the summer and we have a summer and we have a superior or the summer and we have a summer and we

Tonight and tomorrow night the Mascot will be sung at the operahouse by the Passadena Conservatory of Opera under the direction of O. W. Kyle. Wednesday evening a full dress rehearsal was held and so well trained was the chorus that it was deemed unnecessary to rehearse again last night. The principal parts are well taken and several novelities have been introduced which are sure to please. The opera has been thoroughly rehearsed and all the fine points will be brought out. The performances will doubtless receive the liberal patronage they deserve. Seats on sale at Foster's.

Suicide of a Wealthy German Rancher by Hanging.

Interesting Session of the Teachers' Institute—Profits in Growing Apples
—Real-estate Sales—Personals.

August Callins, a wealthy German who lived near Hueneme, committed suicide by hanging, Wednesday night. He tied a rope around his neck and fastened the other end to the bed post and then threw himself forto the bed post and then threw himself for-ward so that a strain would come on the rope. In this way he strangled to death, In the next room were his wife and family. When his wife went into the bed-room she found her husband hanging by rope, still alive, but a few minutes after being cut down he expired. No cause is known for the deed, as he was in prosperous circum-

That we greatly rejoice in the success of the Sunday closing of saloons in Los Angeles and elsewhere, and at the noble stand taken by the authorities in enforcing the same, and with Christians of other denominations in California we oppose license in any form, and pledge ourselves to labor to our utmost to overthrow the liquor tradic, and to inaugurate prohibition in the State and Nation.

In the afternoon the beautiful house of worship on California street, which has recently been freed from debt, was formally dedicated in the presence of a large congregation. The new law relating to lottery adver-tisements and the duty it imposes upon postmasters, to take a peep now and then into the newspapers of this State is destined, probably, to make Santa Barbara more or probably, to make Santa Barbara more or less famous. The latest development in this line is the retention in the office here of a copy of the San Francisco Chronicle of the 20th inst., containing an adroitiy-worded interview puff for a lottery company. The paper is addressed to a gentleman in Santa Ynez, and is supposed to have been deposited in the office by Theodore Knox, the agent of the several San Francisco newspapers. One peculiar feature about this paper is the evident intention of the depositor to comply with the law, since the large, two column advertisement of Conrad was cut from this number, but the interview "reader" was overlooked. The case will be reported to the department, and it will probably be acted upon soon.

The plan of the subscription will be like that employed in Ventura county, and which has secured the construction of lines into every hamlet in that county. POMONA.

The Public Library Moved into Its New Quarters.

[The TIMES conveys the news of the world to Pomona 24 hours in advance of the San Francisco papers. The Pomona branch office and agency is at Armour's Pharmacy. Second street, where advertisements, orders for the paper and news items are received.]

Pomona boasts of a better city library

than most towns of its size, and now that the word "Library" may be seen in bold letters upon the Thomas street face of the new Union Block, new interest is awakened in it. Like the greater part of similar in Stitutions for the elevation of mankind the Pomona city library was originated by women. In 1887 about twenty of the most progressive women of the town, deeply feeling the necessity of better facilities for sary funds for a beginning they held a series of flower festivals, which were very sary funds for a beginning they held a series of flower festivals, which were very successful. A small room in the Ruth Block was rented and the library opened to the public. The project met with great favor and increased rapidly, so that in 1889 the three rooms now occupied by it in the First National Bank building were leased, and the city authorities induced to take control of it. The usefulness of the library was greatly increased by the addition of reading-rooms containing current issues of all the best standard periodicals. The present quarters are now too small, every chair in the reading-rooms being filled almost daily. The new rooms will be much more commodious, and no doubt the library will then receive still greater patronage. It now contains 2250 volumes, all clean, wholesome books, nothing trashy being admitted. The trustees of the library are: Rev. C. F. Loop, president: Charles I. Lorbeer, secretary; Dr. C. W. Brown, Fred J. Smith and John H. Dole. The librarian, Mrs. E. P. Bartlett, has filled this position since its organization in 1887, and much of the prosperity of the library is due to her emicient labors in its behalf.

PLEASANT SURPRISE PARTY.

A very pleasant affair was the surprise party given Wednesday evening at the residence of W. K. Balley, corner of Garey avenue and Pearl street, the occasion being the twenty-affth anniversary of the marriage of Mrs. Bailey's parents, Mr. and Mrs. H. H. Williams. Quite a number of friends were invited in, many of them from Mr. and Mrs. Williams's old home in Iowa, but now resident here. Quite a collection of handsome sliver presents were received, and with refreshments and games a very enjoyable evening was spent. At a late hour the guests departed, wishing the happy couple many joyous returns of their wedding anniversary.

Runaways are quite frequent upon our streets just now, probably due to the vitalizing character of the atmosphere. Becket & Cole's delivery wagon ran through the orchard while Mr. Beckett was at supper, and broke things up pretty well, and a double team engaged in hauling sand took a little spurt yesterday.

Street fakirs are plentiful in Southern California, and seem to be reaping a good harvest from fools who want to get something for nothing, or enjoy being duped. There was a smooth-tongued fellow in Pomona Wednesday evening selling patent medicine and playing slick tricks. He walked away with a cool \$120 of Pomona cash for one evening's work. It is reported that he carried away more than twice that amount from San Bernardino. "A fool and his money are soon parted."

Many Varieties of Citrus and Deciduo Fruits on Exhibition - Unusally Good Musical Programme Last Evening.

The fact that the public appreciate the horticultural exhibition at Hazard's Pavilion is shown by the increasing attendance. The crowd has increased each day, and it is anticipated that at least three thousand people will visit the pavilion today and this evening. The most interesting event of yester-

day was the award of premiums to the fruit exhibits. While the fruit is not a very large showing, gauged by the standard of bulk, yet many varieties of citrus and deciduous fruit are shown, and what is more to the point, it is all first class and properly labeled. The awards made by the judges, consisting of W. C. B. Richardson of Tropico, John S. Calkins of Pomona, and G. H. A. Goodwin of Los Angeles, are as follows:

ABSOLUTELY PURE

At 7 o'clock yesterday morning Officer Maguire arrested rather a singular customer in the Spence building, on the corner of Requena and Commercial streets, in the person of Charles Fink. Up to a few weeks ago Fink was a sober, industrious man, and has acted as janitor in several buildings in the city. Why he took to hard drink no one knows, but such is the fact, and he one knows, but such is the fact, and he is now suffering from a bad case of jim-jams. When found by the officer he was prancing around his room with a revolver in each hand, looking for some one to slaughter. He was taken to the police station and booked as an insane, and was later in the day removed to the County Jall, where he will await his examination.

. FAMILY TROUBLES

WELL, I DECLARE!

Wifie has made an awful mistake in the purchase of my pants. Instead of "Papa's pants will soon fit Willie," she seems to think Willie's pants will soon fit papa. Now why didn't she go to the London Clothing Co. and buy them? They keep the same salesmen all the time, and they know just what size I wear, and always give one good wearing goods, and if anything turns out wrong they refund the money. I'm real mad, I don't think.

IT IS NOTHING

But patch, patch, patch, all the time. I'm just getting sick and tired of it. The next time I buy a pair of trousers for pap I'll take his advice and go to the London Clothing Co. Pap says that's the only store in town that keeps a good big lot of pants for big men, anyway, and then they have such polite clerks. Guess I'll go down there next week and buy pap an overcoat. I notice they have some "Jim Dandies" in their big show windows and they are strictly one price.
